Hydrobiologia

The International Journal on Limnology and Marine Sciences

Contents

Volume 382

Optimal conditions for primary production in a polymictic tropical lake (Lake Xolotlán, Nicaragua)
by R. Erikson, E. Hooker, M. Mejia, A. Zelaya & K. Vammen 1–16

Algal respiration and the regulation of phytoplankton biomass in a polymictic tropical lake (Lake Xolotlán, Nicaragua)
by R. Erikson 17–25

Distribution and dynamics of bacterioplankton production in a polymictic tropical lake (Lake Xolotlán, Nicaragua)
by R. Erikson, K. Vammen, A. Zelaya & R.T. Bell 27–39

Environmental and biological factors influence the relationship between a predator fish, *Gambusia holbrooki*, and its main prey in rice fields of the Lower Mondego River Valley (Portugal)
by J.A. Cabral, C.L. Mieiro & J.C. Marques 41–51

Effects of fenvalerate on the net-spinning behaviour of *Hydropsyche siltalai* (Döhler) (Trichoptera: Hydropsychidae)
by L. Wendt-Rasch, L.B.-M. Vought & P. Woin 53–61

Rehabilitation of aquatic habitats in warmwater streams damaged by channel incision in Mississippi
by F.D. Shields, Jr., S.S. Knight & C.M. Cooper 63–86

The significance of extracellular production and winter photosynthesis to estimates of primary production in a woodland stream community
by M.L. Ostrofsky, D.E. Weigel, C.K. Hasselback & P.A. Karle 87–96

Productivity of clear and humic lakes: nutrients, phytoplankton, bacteria
by G.K. Nürnberg & M. Shaw 97–112

Sulfate-induced isotopic variation in biogenic methane from a tropical swamp without anaerobic methane oxidation
by T. Miyajima & E. Wada 113–118

Two new species of *Paracyclops* (Copepoda: Cyclopoida, Cyclopidae) from Africa
by S. Karaytug, D. Defaye & G.A. Boxshall 119–136

The sulfide tolerance of milkfish and tilapia in relation to fish kills in farms and natural waters in the Philippines
by T. Bagarinao & I. Lantin-Olaguer 137–150

Organic matter processing by chironomid larvae (Diptera: Chironomidae)
by K. Hirabayashi & R.S. Wotton 151–159

Decomposition of protein compounds in a eutrophic lake: spatial and temporal distribution of exopeptidase and endopeptidase activities in various size fractions
by D. Debroas 161–173
Two new species of *Keratella* (Rotifera: Monogononta: Brachionidae) from Inner Mongolia, P.R. China
by H. Segers & S. Rong 175–181
